

Captain America: The First Avenger Movie

Soundtrack

CD Disc Cover

Captain America: The First Avenger Movie Soundtrack

CD Disc Cover Process

Adobe Photoshop

Background: I used a picture of a shield, a texture image used in the first project, and an army photo to add more depth. I used the respective blending modes for these elements.

Characters: For the woman on left (Peggy Carter), I used two separate pictures to create one full-body image of her by using blending modes and layer masks in Photoshop. Also used blending modes for Captain America and man on the right (Bucky Barnes).

Adobe InDesign

Typography: Several different fonts were used.

Adobe Illustrator

Symbols: The symbols on the left represent a "record company" label on the CD cover.
